

Jesus Torres Software Engineer

(760) 515-9294 • j.torres3.dev@gmail.com • LinkedIn: [TorresjDev](#) • GitHub: [TorresjDev](#)

Skills

- **Front-End:** HTML5 | CSS3 | JavaScript | TypeScript | React | Angular
- **Back-End:** C# | .NET Core | ASP.NET | T-SQL | RESTful API | JSON | MongoDB
- **Libraries & Frameworks:** Node | Axios | Ajax | Bootstrap | jQuery | Express | Mongoose
- **Tools & Methodologies:** Git | GitHub | Postman | Chrome DevTools | Visual Studio Code | Visual Studio | SSMS | Agile/Scrum methodologies

Experience

Sabio Enterprises Inc | *Software Engineer Instructor* | Remote | 11/2022–06/2023

- Contributed to a diverse team, employing Agile methodologies to deliver comprehensive full-stack software solutions.
- Orchestrated daily remote peer reviews providing insightful programming concepts to a cohort of about 40 developers every 7 weeks.
- Deployed extensive debugging strategies, utilizing tools such as Chrome DevTools, Postman, and Axios for problem-solving, enhancing error handling, enabling detailed logging, and managing Promises for superior application stability.
- Assisted developers in debugging and problem-solving during curriculum development.
- Achieved a 90% satisfaction rate in creating testing files for React and JavaScript.
- Mentored and guided 15-20 developers' daily programming curriculum: JS, React, C#, and SQL.

Institute to Advance Diversity | *Software Engineer* | Irvine, CA | 05/2022–08/2022

- Conducted peer planning sessions, code reviews, and collaborative pair programming.
- Managed and maintained relational databases utilizing Microsoft SQL Server Management Studio to optimize data accessibility and integrity.
- Immersed in the full-cycle software development process, conducting peer planning sessions, meticulous code reviews, collaborative pair programming, source control, and testing alongside senior and junior developers.
- Engineered comprehensive components using ASP.NET, MVC, and React, incorporating advanced functionalities that heightened user interaction and user experience.

Liberty Tax | *Licensed Tax Preparer* | Apple Valley, CA | 12/2021–04/2022

- Prepared over 150 federal and state income tax returns for individuals, married taxpayers, small businesses, and retirees.
- Fostered strong client relationships through effective communication and customer service.

U.S. Census Bureau | *Enumerator* | Lancaster, CA | 05/2020–10/2020

- Effectively communicated the importance of Census data collection throughout the Greater Los Angeles district.

U.S. Army | *Team Leader Paratrooper* | Vicenza, Italy | 06/2013–12/2018

- Developed strong team-building and communication skills while collaborating with NATO allies in diverse and challenging environments.
- Collaborated with NATO allies across 12 joint exercises, enhancing multinational cooperation and achieving a 95% satisfaction rating in post-exercise evaluations.

Education

- **Sabio Coding Camp** | Full Stack Software Developer Certificate | 08/2022
- **FreeCodeCamp** | Front-End Software Development Certificate | 12/2020
- **College of the Canyon** | Business Administration 40 credits | 08/2020–06/2021

Projects

- **Codepen.io** | Web design projects: HTML CSS JavaScript | 09/2022
- **Github** | Current Repositories Projects: JS, React, C# | 10/2022
